Reviewer's report

Title: More than a checklist: A realist evaluation of supervision of mid-level health workers in rural Guatemala

Version: 6 Date: 20 January 2014

Reviewer: Ruth A. Anderson

Reviewer's report:

1. The revisions made by the authors are quite satisfactory. Minor revision.
2. I suggest that the discussion be strengthened by bringing it back to rural developing countries. Because the contribution of the paper is to elucidate the unique supervisory issues in these settings, it would be most useful to restate this contribution clearly and strongly in the discussion.

Level of interest: An article of importance in its field
