Title: Enhancing provision of written medicine information in Australia: pharmacist, general practitioner and consumer perceptions of the barriers and facilitators

Version: 1 Date: 18 November 2013

Reviewer: Geoff J March

Reviewer's report:

1. Minor essential revisions

Table 4; two blank entries (Pharmacists, GPs) for the descriptor “It is a repeat prescription”.

Study Design; sentence starting “A random sample population data) of…. “ doesn’t make sense.

Sample size; the sentence starting “There was no published data…” should read “were”.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
