Reviewer's report:

The authors have addressed my comments and the other reviewer’s comments, hence manuscript has significantly improved. In the current form the manuscript is acceptable for publication in the journal. My only minor comment is that on page 13 and page 20 there are quotes which were not referenced. If the authors think this quotes are important they should indicate the source or alternatively put this statements in a table.

Level of interest: An article whose findings are important to those with closely related research interests
