Title: Networking between community health programs: a team-work approach to improving health service provision

Version: 3  Date: 27 June 2014

Reviewer: Debbie Humphries

Reviewer's report:

This version of the manuscript is much improved.

Minor Essential Revisions

1 - p. 6 – ‘broadly similar faith understanding’ – it is still ambiguous whether the quotation is referring to a religious faith or another kind of faith. Use of the word ‘faith’, which is inherently ambiguous, needs to be clarified.

2 - p. 1. reference formatting is inconsistent on p. 2 & p. 14 – Kendall E, and “Another study from the USA” has no reference.

3 - p. 2. “The main aims of this Cluster were to cooperate so to build” – fix language

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
