Reviewer’s report

Title: Governing the implementation of Emergency Obstetric Care: experiences of Rural District Health Managers, Tanzania.

Version: 1 Date: 16 February 2014

Reviewer: Hemant DWIVEDI

Reviewer’s report:

Discretionary Revisions-
Few suggestions for Authors-
1. Under “INTRODUCTION” –Sub title- ‘Implementing maternal health policies with in decentralized health system’- 12th and 15th line has repetition of “it was also noted”. This may be articulated differently.
2. Under “METHODS” -Sub title- ‘Study Setting’- 10th line- “High risk women and those with complications” need further review. As Maternal health literature and in several studies “High risk women” category is challenged for the women going to manifest obstetric complications. To me more it is “Pregnant women identified with complications”.
3. You may like to express limitations of the study more objectively.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
