Reviewer's report

Title: Using focused ethnography in paediatric settings to explore professionals' and parents' attitudes towards expertise in managing chronic kidney disease stage 3-5

Version: 2
Date: 14 July 2014

Reviewer: Gavin Daker-White

Reviewer's report:

The authors have responded to the referees' comments and I am happy to recommend this manuscript for publication.

I detected one typo. in the revised manuscript:

First line of the first paragraph of "Discussion," p. 31: "Through utilising an focused" should read "a focused".

I also note that the authors use a hyphenated "health-care", although this may be purely a stylistic issue.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare I have no competing interests.
