Title: The development of a public optometry system in Mozambique: a Cost Benefit Analysis

Version: 2 Date: 1 August 2014

Reviewer: Roger Chung

Reviewer's report:

Major compulsory revisions:
- Table 5 would be much easier and more meaningful for comparison if to be made into a Figure Plot. Please do so.
- Again, I would think that the figures in Table 4 can be presented in a schematic manner (i.e., Plot)

Minor essential revisions:
- Please check grammar for this sentence:  "Without any including any discounting at all, by 2049, a total of $2.5 billion in societal benefits are recorded."

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
