Reviewer's report

Title: Reimbursement for reconstruction by tissue transfer - A European comparison

Version: 2 Date: 8 March 2013

Reviewer: Peter Vogt

Reviewer's report:

The article describes a relevant problem: Reimbursement for reconstruction by tissue transfer. By doing this in the European comparison, the authors provide insight into the value and cost structure in the different European countries. This may be of even higher importance in the light of the European transborder health service. (EHIC).

It should be accepted without revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
