Reviewer's report

Title: Reimbursement for reconstruction by tissue transfer - A European comparison

Version: 3 Date: 16 July 2014

Reviewer: Andrea Messori

Reviewer's report:

The revised paper has been much improved in comparison with the previous version.

On the one hand, this study suffers from an important limitation in that "individual data of real patients" were not available. On the other the revised paper now acknowledges this weakness and so, on the basis of the present version of the article, readers can fully appreciate the strengths and the limitations of the study.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

No conflict of interests
