Reviewer’s report

Title: How do women judge quality? Determinants of perceived quality of obstetric care in rural Tanzania: a cross-sectional study

Version: 2 Date: 30 September 2014

Reviewer: May Nawal Lutfiyya

Reviewer’s report:

I have read the manuscript and the authors' responses to my review. I am satisfied that they have adequately responded to my concerns. I would note, however, that the references are not in the correct format and that the numerical references in the body of the manuscript need to be separated by commas when there are more than 2 references.
