Reviewer’s report

Title: Estimating recruitment rates for routine use of patient reported outcome measures and the impact on provider comparisons

Version: 7 Date: 21 September 2013

Reviewer: Miranda Wolpert

Reviewer’s report:

This is clearly written paper that addresses an important issue that may have wider implications for use of data for performance management and other purposes.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I am Director of the Child and Adolescent Mental Health Services (CAMHS) Outcomes Research Consortium (CORC), a not-for-profit learning collaboration which supports services in making comparisons using patient reported outcome measures.
