Reviewer’s report

Title: Costs and Repeat Rates Associated with Colonoscopy Observed Medical Claims for Commercial and Medicare Populations

Version: 1 Date: 24 September 2013

Reviewer: mohsen barouni

Reviewer’s report:

Editor :there are some correction as below

1- Is the question posed original, important and well defined?
   Yes

2- Is the data sound and well controlled?
   Yes, that is good

3- Is the interpretation (discussion and conclusion) well balanced and supported by the data?
   No, authors should interpretive more and more .

4- Are the methods appropriate and well described, and are sufficient details provided to allow others to evaluate and/or replicate the work?
   In this paper (in method part) author should describe the estimation type of costs for example top down or down top also you should answer “what is your view for example government, patients ..... Finally author should add more studies in discussion part
