Reviewer’s report

Title: Interventions to improve cultural competency in healthcare: a systematic review of reviews

Version: 3
Date: 27 December 2013

Reviewer: Patriek Mistiaen

Reviewer’s report:

General: the authors replied adequately to all comments and made almost all necessary changes.

Minor essential revisions:
1. please add some more text in discussion, about the sensitivity of the searches and how this could have been improved and what possible consequences are of this (do authors think that conclusions would change if they would find more reviews?)
2. Included reviews were now checked methodologically by two reviewers. However this only stated in the abstract and not in the text itself

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
