Reviewer’s report

Title: Reporting of measures of accuracy in systematic reviews of diagnostic literature

Authors:

Honest Honest (h.honest@bham.ac.uk)
Khalid S. Khan (k.s.khan@bham.ac.uk)

Version: 4 Date: 18 Jan 2002

Reviewer: Dr Carolyn Rutter

Level of interest: A paper of considerable general medical or scientific interest

Advice on publication: Accept without revision

The revised article addresses the issues brought up in the earlier review. In particular, this version clearly describes the differences between the earlier report by Walter and Jadad and the current study. This is an interesting review that points out the frequent use of inappropriate summary methods.
