Reviewer's report

Title: The Effectiveness Of Metal On Metal Hip Resurfacing: a systematic review of the available evidence.

Version: 1 Date: 9 March 2004

Reviewer: Seppo Santavirta

Reviewer's report:

General
The report is very timely, and serves as an important warning for the clinician not to use the MoM without critical evaluation of each case.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
