Reviewer's report

Title: The Effectiveness Of Metal On Metal Hip Resurfacing: a systematic review of the available evidence.

Version: 2 Date: 15 November 2004

Reviewer: Kavita K Nanda

Reviewer's report:

General

----------------------------------------------------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

I am still concerned about the limitation of the search to 2001. Why can't you update the search?
----------------------------------------------------------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after discretionary revisions

Level of interest: An article whose findings are important to those with closely related research interests
