Version: 2 Date: 14 February 2005

Reviewer: Gail Tumulty

Reviewer's report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

The article is much improved since my previous review and my major concerns have been addressed.

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

There continue to be a few grammatical errors which the editor should be able to correct easily.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision
