Reviewer's report

Title: Patient Involvement in Medical Decision-Making and Pain among Elders: Physician or Patient-Driven?

Version: 3 Date: 8 December 2004

Reviewer: Pekka Mäntyselkä

Reviewer's report:

General
The authors have considered seriously all of my comments, and they have made the necessary corrections, additions and changes.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
