Reviewer's report

Title: Cost and efficiency of public sector sexually transmitted infection clinics in Andhra Pradesh, India

Version: 1 Date: 30 July 2005

Reviewer: MJ Postma

Reviewer's report:

General: very good and relevant paper

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached): the regression formula in the results should be introduced in the methods, the impression exists that the formula is by definition i.e. R-squared will always be 100%. please discuss this bit more than is currently done.

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct): none

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore): none

What next?: Accept after discretionary revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
