Reviewer's report

Title: The feminization of the medical work force, implications for Scottish primary care: a survey of Scottish general practitioners.

Version: 3 Date: 3 April 2006

Reviewer: Gunilla Risberg

Reviewer's report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
The authors still use the term "gender" instead of "sex" in tables 1, 2, and 5 and in figure 1.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
