Reviewer's report

Title: Racial and ethnic disparities in the control of cardiovascular risk factors in southwestern American veterans: the Diabetes Outcomes in Veterans Study

Version: 2 Date: 25 April 2006

Reviewer: Michele Heisler

Reviewer's report:

General
My first review of their manuscript was very positive. If the editors feel that they have addressed the concerns, I would recommend it.

------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

------------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision
