Reviewer's report

Title: Glucose testing and insufficient follow-up of abnormal results: a cohort study

Version: 2 Date: 21 June 2006

Reviewer: Wolfgang Rathmann

Reviewer's report:

General
The authors has been responsive to the critique raised by the review. They have successfully answered all queries. In particular, the limitations of the present study have been clarified.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
