Reviewer’s report

Title: Distinguishing patterns in the dynamics of long-term medication use by Markov analysis: beyond persistence.

Version: 5 Date: 22 May 2007

Reviewer: John F Steiner

Reviewer’s report:

General
The authors have addressed my comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
I declare that I have no competing interests.
