Reviewer’s report

Title: Healthcare in schizophrenia: effectiveness and progress of a redesigned care network

Version: 2 Date: 22 July 2007

Reviewer: Francesco Amaddeo

Reviewer’s report:

General
I think that the authors answered to all my original criticisms.

----------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
