Reviewer's report

Title: Determinants of the range of drugs prescribed in general practice: a cross-sectional analysis

Version: 2 Date: 29 May 2007

Reviewer: wim verstappen

Reviewer’s report:

I don’t have any new comments on the paper.
I think all my early comments are being handled in a proper way and I find publication in this form acceptable.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
