Reviewer's report

Title: The quality of communication about older patients between hospital physicians and general practitioners: a panel study assessment

Version: 2 Date: 28 May 2007

Reviewer: Moyez Jiwa

Reviewer's report:

General

-------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Nil

-------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Nil

-------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)
The results section of the abstract is replete with percentages. These could be better presented or reported as 39-84%.

What next?: Accept after discretionary revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
