Reviewer's report

Title: Handling Health Promotion in Hospitals in diagnosis-related groups (DRGs): evaluation of systematic codes for health promotion activities in a multicentre project

Version: 4 Date: 29 May 2007

Reviewer: Hude Quan

Reviewer's report:

General

-----------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
1. On 3, ICD 10 was introduced before 1994. Authors may check WHO Classificaiton Unit for the date of its introduction.
2. On page 3, ICF should be described using a full term when it is first used instead of description ‘ICF’ on Page 4.

-----------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
