Reviewer's report

Title: The implementation of the Medical Regulation Office and Mobile Emergency Attendance System and its impact on the gravity profile of non-traumatic afflictions treated in a University Hospital: a research study

Version: 3 Date: 3 April 2007
Reviewer: Lars Lind

Reviewer’s report:

General
I have looked through the changes made by the authors, and I now think the manuscript is ready to be published.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
