Reviewer's report

Title: The most dangerous hospital or the most dangerous equation?

Version: 2 Date: 27 August 2007

Reviewer: Jerod Loeb

Reviewer's report:

General
no comments

---------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
no comments

---------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

no comments

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I declare that I have no competing interests.
