Reviewer's report

Title: Deficient supplies of drugs for life threatening diseases in an African community

Version: 2 Date: 8 May 2007

Reviewer: Reginald P. Sequeira

Reviewer's report:

I have now completed reviewing the revised version of this manuscript. I am pleased to see that the suggestions made have been incorporated by the authors and the paper reads very well. Considering the importance of this work I would recommend that it should be published in BMC Health Services Journal.
