Reviewer's report

Title: Involving deprived communities in improving the quality of primary care services: does participatory action research work?

Version: 3 Date: 21 May 2007

Reviewer: Steve Iliffe

Reviewer's report:

General
The authors have responded to the three suggestions that I made

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
