Reviewer's report

Title: Maintaining quality of health services after abolition of user fees: A Uganda case study

Version: 5 Date: 25 February 2008

Reviewer: David Bishai

Reviewer's report:

This revised manuscript addresses the major concerns found in the initial review. There are only minor grammatical problems which can be corrected in proofreading. Ex. abbreviating "focus group discussions" with FDG shouldn't that be FGD?

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
