Reviewer's report

Title: Developing the content of two behavioural interventions. Using theory-based interventions to promote GP management of upper respiratory tract infection without prescribing antibiotics#1:

Version: 2 Date: 8 November 2007

Reviewer: Chris Del Mar

Reviewer's report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
