**Title:** A predictive score to identify hospitalized patients requiring discharge to a post-acute care facility

**Version:** 2  **Date:** 11 January 2008

**Reviewer:** Kathryn Bowles

**Reviewer's report:**

Accept after minor essential revisions (which the authors can be trusted to make) I feel the authors did a very good job of addressing all concerns and in my opinion, the manuscript should be accepted. The minor revision is on page 9 the word built should read build.
