Reviewer's report

Title: Dissatisfaction with the Laboratory Services in conducting HIV related testing among Public and Private Medical Personnel in Tanzania

Version: 2 Date: 1 April 2008

Reviewer: Ole Norheim

Reviewer's report:

Major Compulsory Revisions

Most of the suggestions for improvement have been dealt with, but there should be a paragraph on Strength and Limitations of the study. There are several sources of bias in this study that have not been discussed. Are the findings valid and reliable? How where these issues handled? This must be discussed.

Level of interest: An article of importance in its field

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
