Reviewer’s report

Title: Is networking different with doctors working part-time? Differences in social networks of part-time and full-time doctors

Version: 2 Date: 12 September 2008

Reviewer: Margaret Kilmartin

Reviewer’s report:

The manuscript is a pleasure to read as the information is now better explained and set out. The manuscript will make a contribution to the literature on this subject and the authors have tackled the review of the methodology satisfactorily. The authors have answered my points sufficiently well to allow their manuscript now to be published.
