Reviewer’s report

Title: Towards integration of general practitioner posts and accident and emergency departments: a case study of two integrated emergency posts in the Netherlands

Version: 2 Date: 31 August 2008

Reviewer: Gerard Bury

Reviewer’s report:

The revisions address many of the issues raised. There are still a number of issues which could be revised - such as indicating that the very low patient response rates to satisfaction surveys cast significant doubts on their validity - but the initiative and research warrent publication at this stage and subsequent public discussion.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
