Reviewer’s report

Title: Estimated time spent on preventive services by primary care physicians

Version: 2 Date: 31 October 2008

Reviewer: Hector Rodriguez

Reviewer’s report:

The authors did a nice job of addressing the initial concerns. In particular, the discussion about the exclusion of advanced practice clinicians and likelihood of bias in physician time allocation really strengthens the article.

The study is an important addition to the literature.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
