Title: Quality of Medical Training and Emigration of Physicians from India: an observational study

Version: 5 Date: 17 November 2008

Reviewer: Onyebuchi A Arah

Reviewer's report:

Minor Essential Revisions
On page 11, last paragraph: the correct reference to the descriptive/correlational findings on Africa is reference 7. Reference 25 which the authors refer to is a multivariate regression analysis for 141 countries across the world documenting similar findings. The authors should adjust their referencing and summarizing reference text appropriately in that last paragraph of page 11 of their manuscript.

Discretionary Revisions
On page 11, last paragraph: the referenced author's name should be "Arah" NOT 'Orah'.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
