Reviewer's report

Title: Insights about the process and impact of implementing nursing guidelines on delivery of care in hospitals and community settings

Version: 2 Date: 31 October 2007

Reviewer: Gill Harvey

Reviewer's report:

General

The authors have gone to considerable effort to address the comments raised in the first review. Although it remains a broad article in scope, it has been improved by the changes made and the additional detail in the tables.

-----------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
