Reviewer's report

Title: Screening for inter-hospital differences in cesarean section rates in low-risk deliveries using administrative data. An initiative to improve the quality of care

Version: 4 Date: 24 July 2007

Reviewer: K.S. Joseph

Reviewer's report:

General
No additional comments. The authors have considered the reviewer comments carefully and addressed each of these.

--------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

--------------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
