Title: The influences of Taiwan's National Health Insurance on women’s choice of prenatal care facility: Investigation of differences between rural and non-rural areas

Version: 3 Date: 8 February 2008

Reviewer: Judith Lumley

Reviewer's report:

I have now re-read all the versions of the paper and all the reviewers’ comments. I did not find any major problems in the last revised paper which would or should be a barrier to publication.
