Major Compulsory Revisions: None

Minor Essential Revisions: The numbering of the tables are confused. In the Results Table 2 should read table 1, table 3 should read table 2 and table 1 should read table 3 (page 15 in the manuscript). Page 16, second paragraph, fourth line a misspelling, should read web-based.

Discretionary Revisions: It would be helpful if some explanation as to the tools used in validation was included, i.e. how the Likert scale was used.

**Level of interest:** An article of importance in its field
