Reviewer's report

Title: Implementation of a program for type 2 diabetes based on the Chronic Care Model in a hospital-centered health care system: "the Belgian experience".

Version: 2 Date: 25 June 2009

Reviewer: Sarah Dennis

Reviewer's report:

Thank you for sending me the revisions for this paper. I think that the improved clarity in the methods section has made an enormous difference to the readability and my understanding of the complex nature of the project. I like the table set out in the response to reviewers and think that this would be a useful addition to the paper particularly as this was a complex evaluation.

The paper needs careful editing as the English is clumsy in place.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
