Title: Introducing the National COPD Resources and Outcomes Project: why audit alone is an insufficient driver of change

Version: 1 Date: 13 November 2008

Reviewer: Felix Ram

Reviewer's report:

A good manuscript which will guide us to provide improved care for COPD patients.

Minor change required:
Page 5 of the manuscript (Background section, last paragraph) requires rewriting as it's confusing as to which phase(s) of the study are being reported in the current manuscript.
