Reviewer’s report

Title: The development of integrated care services in the Netherlands: an empirical study towards a development model.

Version: 2 Date: 9 January 2009

Reviewer: Allan Krasnik

Reviewer’s report:

The authors have taken all my comments into account in their revision of the manuscript. It now provides a clear, detailed presentation of the methodology and results and a thorough discussion of methodological strengths and weaknesses. I have no further comments and recommend publication of the manuscript in the journal as an interesting contribution to the development and studies within the field of integrated care.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
