Reviewer’s report

Title: A qualitative examination of inappropriate hospital admissions and lengths of stay

Version: 2 Date: 20 November 2008

Reviewer: Francesc Cots

Reviewer’s report:

I read the response of the authors and I think that in spite of not having made the changes requested, they respond to questions raised. I hope that the quantitative study, which is in the process of review also will be accepted and can be read complementarily. In this case study will be acceptable for publication.
