Reviewer's report

Title: Framing access to medicines in developing countries: an analysis of media coverage of Canada’s Access to Medicines Regime

Version: 3 Date: 27 October 2009

Reviewer: Kristina Lybecker

Reviewer’s report:

The authors have addressed my concerns in an acceptable way and answered each of my questions.

I do not believe that the sampling technique is either statistically meaningful or rigorous enough to generate convincing results. This prevents me from recommending the manuscript for publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have consulted for and spoken at events sponsored by PhRMA.
