Reviewer's report

**Title:** From their own perspective - constraints in the Polio Eradication Initiative: perceptions of health workers and managers in a district of Pakistan's Punjab province

**Version:** 3  **Date:** 25 July 2010

**Reviewer:** Laura Esmail

**Reviewer's report:**

The authors have improved the article considerably and have addressed the requested revisions. The following are minor essential revisions (which the authors can be trusted to make):

Page 8: a reference needs to be formatted ("Administrative data: 2009").

Page 20-22: I suggest that the authors either delete the "Summary" section or integrate non-redundant parts into the Conclusions section, as it seems to simply repeat the bullet points under the Conclusion section.

Page 22: delete the last paragraph under the "Conclusions" section, as it does not add any insight into the conclusions.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
