Title: National health financing policy: What should it reflect in Eritrea?

Reviewer's report:

I had close look at the revised version of the paper "National health financing policy in Eritrea: a survey of preliminary considerations" - which I reviewed a first time a couple of months ago.

I believe that the format of the paper has dramatically improved. There where it had initially the shape of a "report", it is now much more in line with the format and layout of a scientific paper. The methodology section has also greatly improved.

Hence, I have no objections in accepting the paper for publication.
